

The *idrive* PRO[®] is now
Z-Wave[®] enabled

WAYNE-DALTON GARAGE DOOR OPENER

idrive PRO[®]

"MADE FOR PROFESSIONALS"

➤ Z-WAVE[®] ENABLED*

When you open your garage door, advanced Z-Wave[®] technology can turn on your garage lights, outdoor security lights, disarm security, brew coffee, adjust the thermostat and much more – wirelessly.

*Available only on select models

➤ Sleek and fast - quieter than any chain drive opener

➤ No belt, chain or screw drive - the first opener of its kind

➤ Car2U[™] and HomeLink[®] compatible

➤ No photo eyes required when used with pinch-resistant doors equipped with TorqueMaster[®] technology

*life's front door*SM

Simply the most intelligent idea in garage door openers

The *idrive PRO*® is now Z-Wave® enabled

idrive PRO® for TorqueMaster® technology

The *idrive PRO*® for TorqueMaster® technology is engineered to work on Wayne-Dalton's pinch-resistant doors equipped with a TorqueMaster® or TorqueMaster® Plus Spring System.

- No photo eyes required when used with pinch-resistant doors equipped with TorqueMaster® technologies

PRO Models feature:

- Integrated Z-Wave® technology on select models
- Installation diagnostic tools
- Car2U™ and HomeLink® Compatible
- Improved motor programming
- Software and radio enhancements
- Increased lifting capability, *idrive PRO*® for TorqueMaster® systems maximum door height 8 feet, 300lbs

idrive PRO® for Torsion

The *idrive PRO*® for Torsion is engineered to work on most sectional garage doors that use traditional torsion springs.

idrive PRO® for torsion spring applications coming soon.
